Overview Column
Stable blockers stay explicit in the rollout record.

Figure 5
Approval topology by rollout lane.
Canary remediation stays local until the stable gate clears.

Approval Matrix

Stable release approval remains blocked until remediation closes.

Lane | Status
Stable | Blocked
Canary | Ready

Details Column
Approval evidence belongs beside the blocking gate.

Escalation Matrix

Escalation ownership stays local until incident acknowledgement completes.

Environment | Owner
Stable | Release lead
Canary | On-call
